

LAMEQUE's Plan

1. Data and software outputs

1.1 The data and software outputs your research will generate?

MATLAB

1.2 When you intend to share your data and software?

After completing the research - December 30 2024.

1.3 Where your data and software will be made available?

GitHub

1.4 How will your data and software will be accessible to others?

Using Digital Object Identifiers (DOI)

1.5 Are any limits to data and software sharing required?

Question not answered.

1.6 How datasets and software will be preserved?

Question not answered.

2. Research materials

2.1 What materials your research will produce and how these will be made available?

Question not answered.

3. Intellectual property

3.1 What IP your research will generate?

Question not answered.

3.2 How IP will be protected?

Question not answered.

3.3 How IP will be used to achieve health benefits?

Question not answered.

4. Resources required

4.1 People and skills

Question not answered.

4.2 Storage and computation

60GB

4.3 Access

Question not answered.

4.4 Deposition and preservation of data, software and materials

Question not answered.
